

# Global Day of Action

## The Mission to Seafarers' Global Day of Action

If your organisation would like to create a truly memorable day of fundraising that supports seafarers across the globe, and unifies your employees behind one great cause, talk to us now.

This is an ideal way to link offices in different locations, engage your employees, illustrate your CSR credentials, and create a day that enables the Mission to deliver much needed welfare services to all seafarers on a global basis.

As you can imagine, these are exceptionally difficult times for seafarers. We need companies like yours to come forward to take part in initiatives like this, so together, we can support the men and women who are heroically keeping global supply chains going.

*You really can make a difference with just one Day of Action*
